October 28 -29

The First Chinese Veterinary Day Celebration
Beijing Jiuqia International Conference and Exhibition Center

Invitation Letter

The First Annual Chinese Veterinary Conference will be held on October 28-29, 2010, at Beijing Jiuqia International Conference and Exhibition Center, under the auspices of the Chinese Ministry of Agriculture. The goal of this conference is to enhance the development of veterinary medical practice in China.

The Chinese Veterinary Medical Association (CVMA) was formally established on October 28, 2009, and Chinese Veterinary Day will be observed each October 28. This conference, which coincides with this date, will allow the Chinese veterinary community to build communication and cooperation with foreign colleagues, including veterinary authorities, industry leaders and practicing veterinarians from all over the world.

Professionals from animal disease control centers, veterinary hospitals, clinics, related veterinary institutions, animal-health enterprises, members of CVMA, allied professionals and veterinarians from various fields are invited to attend the conference. Expected to attend are senior executives of Chinese veterinary organizations, officers of international veterinary organizations, international experts in veterinary medicine, and veterinary practitioners from various fields in China.

FIRST ANNUAL CHINESE VETERINARY CONFERENCE

Open to CVMA Members,
International Veterinary Practitioners,
Researchers and Allied Professionals.

Co-Host Organizations:

- The China Institute of Veterinary Drug Control
- The China Animal Health and Epidemiology Center
- Harbin Veterinary Research Institute, Chinese Academy of Agricultural Sciences (CAAS)
- Lanzhou Veterinary Research Institute, Chinese Academy of Agricultural Sciences (CAAS)
- Compassion for Animal Foundation Inc (USA)

Premium Sponsor:

- China Animal Husbandry Group

Sponsoring Organizations:

- China Agricultural Vet. Bio. Science and Technology Co., Ltd
- Harbin Weike Biotechnology Co., Ltd
- Qingdao Yebio Bioengineering Co., Ltd
- Jinan Daxin Pharmaceutical Equipment Co., Ltd
